SEPTEMBER  
2021**

## MAINTENANCE TECHNICIAN APPRENTICESHIP

**Are you looking to kick-start your career? Do you enjoy making things, mending things, or tinkering? Then our Maintenance Technician Apprenticeship could be for you!**

Imperial has a vast estate, spread across several sites in London and the South East. We need skilled maintenance technicians to keep these buildings and facilities running safely and efficiently for our staff, students, and visitors. As our apprentice, you will be supported to develop the skills and knowledge to provide a range of preventative and reactive maintenance to building systems, including cold and hot water systems, heating systems, ventilation, electrical systems, and much more. Over our four-year scheme, you will work towards becoming a fully qualified maintenance technician – a profession that is always in demand!

Applicants will need (or expect to gain) grade 9–4 (A\*–C) at GCSE in Maths and English. No prior work experience is required but a passion for engineering, making, or mending is essential.

For details of how to apply please email: [apprenticeships@imperial.ac.uk](mailto:apprenticeships@imperial.ac.uk)

You can read more about our scheme online at: [www.imperial.ac.uk/apprenticeships](http://www.imperial.ac.uk/apprenticeships)
